

Microfiber Washing Instructions

Distributed by Microfiber & More LLC

FABRIC SOFTENER

- > Never use fabric softener
- > Fabric softener will clog and ruin yarn

WASHING

- > Maximum Washing Temp. 194F/90C
- > Do Not Use Strong Alkaline Detergent
- > Normal Agitation Cycle
- > Normal Rinse Cycle

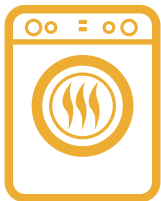

BLEACHING

- > Periodic Light Bleach Only
- > Oxygen Bleach Approved
- > Liquid Bleach In Moderation

SPINNING

- > Unlike Cotton, Microfiber Does Not Absorb Water
- > Water Is Stored In The Cells Of The Yarn
- > Centrifugal Spinning Will Remove 95% Moisture
- > Extended Spin Cycle Will Reduce Dryer Time

DRYING

- > Maximum Drying Temp. 140F/60C
- > Tumble Dry At Low Temperature
- > Avoid Over Drying
- > Extreme Temperature Will Ruin Yarn
- > Less Dry Time Will Extend Life
